If you are upgrading the software to version 1.5.0.5, PayrollPlus version 1.4.0.31 is required. Previous updates are not included in this update.

Release Features

PayrollPlus new features increase the capabilities of the software allowing the user to be more productive, to have more control on the payroll process and to gain more decisional tools and outputs for the administration of the company.

Tax Department Report T.D. 59

Tax Department T.D. 59 (formerly known as I.R. 59) report is available since December 29, 2016. The software module that calculates automatically the taxation based on that form is now ready and included in PayrollPlus.

Tax Department Report T.D. 7 - 2015

While trying to add new features all the time, T.D. 7 (formerly known as I.R. 7) is now available for the tax year of 2015.

Enhancements

PayrollPlus features has been enhanced with better performance, enriched new reports and functionalities.

No enhancements

Fixes

Due the new features and functionalities required to be implemented in PayrollPlus, from time to time we face some issues that need to be fixed. This is an unpleasant case for us and our clients and we always do our best to solve all issues that might raise as soon as possible.

Selection of employees during annual report printing

During the printing of an annual report in PayrollPlus, you might have the option to select some of the employees to include in the report printouts. However, sometimes it had included all of the employees regardless of your selection. This is now fixed.

Known Issues and Problems

We always want to solve issues raised in PayrollPlus before releasing a PayrollPlus Update. However, in order to give solutions as fast as possible, we sometime release updates before fixing all known issues. Yet, we still want to let you know for those issues and minimize the way the issue affects you.

No known issues or problems

Upcoming Features

There is always something new that we are working on, and we would like to let you know about what to expect in the near future.

Interface with popular accounting software

We are implementing interfaces with accounting software to make your life easier. There is many accounting software available in the market and as new customers request implementation of interface with the accounting software they use, we develop accounting interfaces from time to time.

Employees Trainings

Trainings and certificates of the employees with scanned images, scores and evaluation.

Reporting

Reports that are available in the software are enriched and prepared based to the needs of the clients. New reports are developed and getting available on every software update.

Tax Department Form T.D. 7 for the Tax Year 2016

Based on newly released feature of T.D. 7 for the Tax Year 2015, development for the equivalent feature regarding 2016 will start as soon as Tax Department release the specifications of the form.
