Release Features

PayrollPlus new features increase the capabilities of the software allowing the user to be more productive, to have more control on the payroll process and to gain more decisional tools and outputs for the administration of the company.

Tax Department T.D. 7 Form - 2016

Tax Department T.D. 7 form for the tax year 2016 can be created based to the specifications given by the Tax Department. The T.D. 7 Editor can create, change, print, and export to XML file the form with the details of the annual payrolls.

Enhancements

PayrollPlus features has been enhanced with better performance, enriched new reports and functionalities.

No Enhancements in this release

Fixes

Due the new features and functionalities required to be implemented in PayrollPlus, from time to time we face some issues that need to be fixed. This is an unpleasant case for us and our clients and we always do our best to solve all issues that might raise as soon as possible.

Employment start and end date do not show year

Employment Dates both start and end dates did not show the year. At the place of the year you could see YYYY (i.e. 31/12/YYYY). This issue is solved.

Known Issues and Problems

We always want to solve issues raised in PayrollPlus before releasing a PayrollPlus Update. However, in order to give solutions as fast as possible, we sometime release updates before fixing all known issues. Yet, we still want to let you know for those issues and minimize the way the issue affects you.

Credits of the software disappear

This release is trying to face an issue raised with the software licensing that was not affecting any of the existing clients. However, this update might cause the credits of the software to disappear. In such case our staff will gladly fix the issue manually for you.

Upcoming Features

There is always something new that we are working on, and we would like to let you know about what to expect in the near future.

Interface with popular accounting software

We are implementing interfaces with accounting software to make your life easier. There is many accounting software available in the market and as new customers request implementation of interface with the accounting software they use, we develop accounting interfaces from time to time.

Employees Trainings

Trainings and certificates of the employees with scanned images, scores and evaluation.

Reporting

Reports that are available in the software are enriched and prepared based to the needs of the clients. New reports are developed and getting available on every software update.
